

### Installation Instructions

If your hitch bar is mounted low on your mower, the Jack Stand Wheel may not clear the ground. If so, follow these simple instructions.

1. If installed, remove the Jack Stand Leg from the tab bracket.
2. Remove the tab bracket from the mounting tube. Figure 1.
3. Attach the lower holes of the transition plate to the mounting tube. Figure 2.
4. Mount the tab bracket to the upper holes of the transition plate. Figure 2.
5. Re-mount and secure the Jack Stand Leg.
